PUBLIC NOTICE
CITY OF HOYT LAKES

The Hoyt Lakes City Council wants to hear from you!

Next year, the City plans to utilize funds that have been saved up over the past several years and grant dollars to make updates to the playgrounds in town. The Council wants guidance from residents on what you want done, like what new equipment families are wanting to be purchased.

Mayor Scott and Councilor Eckman will be facilitating an informal discussion in which they hope to hear directly from parents in town on what they and their kids would like to see happen and be purchased. They will then present the information gathered to the rest of the Council and staff.

If you wish to be heard and involved, you're encouraged to attend the discussion. If you plan on attending, they ask that you talk to your children beforehand to see what they want. Furthermore, it would be beneficial if you looked into playground equipment before the meeting and bring a list of specific types of equipment that could be purchased.

This meeting is scheduled for November 19th at 5:00PM in the council chambers at City Hall.

We hope to see you there!
