

PUBLIC NOTICE

CITY OF HOYT LAKES

The Minnesota DNR has designated the City of Hoyt Lakes and surrounding areas into drought warning response phase. This forces the City of Hoyt Lakes to implement water conservation efforts. Starting Monday, August 10th Lawn and garden watering will be restricted to every other day, meaning that addresses with even numbers can water on even numbered days and those with odd numbered addresses can water on odd number days. Additionally, any water should take place between the hour of 6am – 10am and 6pm – 10pm to reduce the amount of evaporation from watering. These conservation measures will be in place until further notice from the MN DNR. Thank you for your cooperation with these water conservation efforts.
